

April Dog of the Month

Name Tess

Breed Labrador

Age 6 years **Sex** Female

About Tess Tess is a very beautiful and very special little girl, as she only has three legs. Being a stray, her carers are not sure how Tess came to lose her leg but it certainly doesn't seem to hinder her in any way. In fact, Tess just oozes the fun loving, food loving, cheeky character you would expect from her breed. She is good with other dogs, loves making new people pals and is quite partial to spot of sunbathing!

Type of Home Tess is looking for a calm, friendly home where she can relax and take things at her own pace. Her new family shouldn't expect Tess to take very long walks and children should be aged 8/9 years plus. Tess hasn't been around cats since coming to the centre.
